

List of Publications

Thermal evolution and sediment provenance of the Cooper–Eromanga Basin: Insights from detrital apatite – Jan 2024

Intracontinental Fault Reactivation in High Heat Production Areas of Central Australia: Insights From Apatite Fission Track Thermochronology – Dec 2022

Low-temperature thermal history of the McArthur Basin: Influence of the Cambrian Kalkarindji Large Igneous Province on hydrocarbon maturation – Jul 2022

Thermochronological insights into reactivation of a continental shear zone in response to Equatorial Atlantic rifting (northern Ghana) – Nov 2018
